Instructions & Offers Inside!

**Manufactured By Jabtek Ltd, CT18 8DF**

INSTRUCTIONS:

1. Find a suitable location and check that there are no hazards in the chosen space, e.g. power cables, water pipes or anything that should not be damaged.
2. Using the Drilling template overleaf mark the locations for the holes to be drilled for the bottom brackets A and B
3. Using a pen or pencil mark through the mounting screw holes onto the surface you want to mount to.
4. If mounting to a solid wall use a 5.5mm drill bit to make the necessary holes as marked.
5. Place a Red fixing raw plug in each hole.
6. Line up your bracket holes with the Red raw plugs in the wall and using the screws provided, screw the bracket to the wall, DO NOT OVER TIGHTEN Diagrams overleaf to show orientation of brackets
7. Place your device into the brackets A and B and ensure snug fit and attach C onto the top of the console in the centre ENSURE it is firmly in place before marking the hole to drill.
8. Use a 5.5mm drill bit and Red raw plug if necessary, again.
9. Your device is now ready to be plugged in!
