One battery powers EVERY brand and model of CPAP

No need to stock 12 Volt and 24 Volt Models AGAIN!

One model, without adapters, powers BMC, DeVilbiss, Fisher & Paykel, Resmed, Respiroics, Transcend & more!

The longest lasting, most versatile CPAP Battery

Resmed AirMini AutoSet

14 hours set at CPAP 10cmH20 • 10 hours set at CPAP 15cmH20

Resmed Airsense 10 AutoSet

8.5 hours CPAP 10cm • 7.5 hours set at CPAP 15cm

Philips Respiroics Dreamstation GO AutoCPAP

8 hours set at CPAP 15cmH20

Philips Respiroics Dreamstation AutoCPAP

10 hours set at CPAP 15cmH20 (Humidifier Set at 3)

Philips Respiroics System One AutoCPAP

11.5 hours set at CPAP 10cmH20 (Humidifier Set at 3)

Somnetics/Transcend Auto Mini

10.5 hours set at CPAP 15cmH20

All units tested on manometer. Results may vary depending on heated humidification, and C-Flex or EPR which drops CPAP pressure on exhalation.

Power the AirMini & 2 USB compatible devices
