

Picture Frame

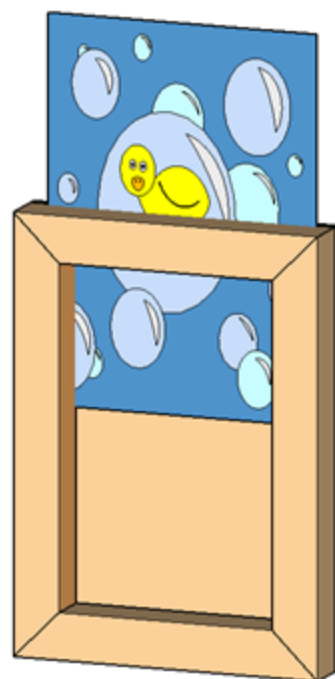

Step 1

Cut four pieces of Cori beams of desired dimensions to create the frame.

Step 2

Cut a piece of cardboard the size of the frame. Apply glue as indicated by dotted blue lines and glue the two pieces together. Use a short piece of Cori beam for stand.

Step 3

Slide your picture into the side that was not glued in step 2.

Step 4

Pick a spot to place your new picture frame and enjoy!
