# 2700Pa Tangless Suction Powerful Vacuuming

Groundbreaking front suction design for instant hair suction. Forget about tangled-hair on the brushroll. The front suction has sucked it all up for you.

# 600g Mopping Force

Not just dragging the cleaning cloth around the house but mopping with real force, pressing down 600g against the floor.

# Tangless Suction 4-in-1

The new Tangless Suction 4-in-1 allows LEGEE to vacuum with the front suction, sweep with the deep-cleaning brushroll, spray water, and mop with 600g force—all at the same time! The tilted side brush effortlessly cleans everything on its way. Dust and dirt has no way to hide!

3 Spray Water

4 Wet Mopping

# AI Smart Spray

## 4 Spraying Nozzles

Our smart water spray design equips with a temperature sensor that allows LEGEE to spray a thin layer of water (**0.002mm**) to dissolve the stains and dirt but not so much to leave water stains behind.

# Deep-Cleaning Brushroll

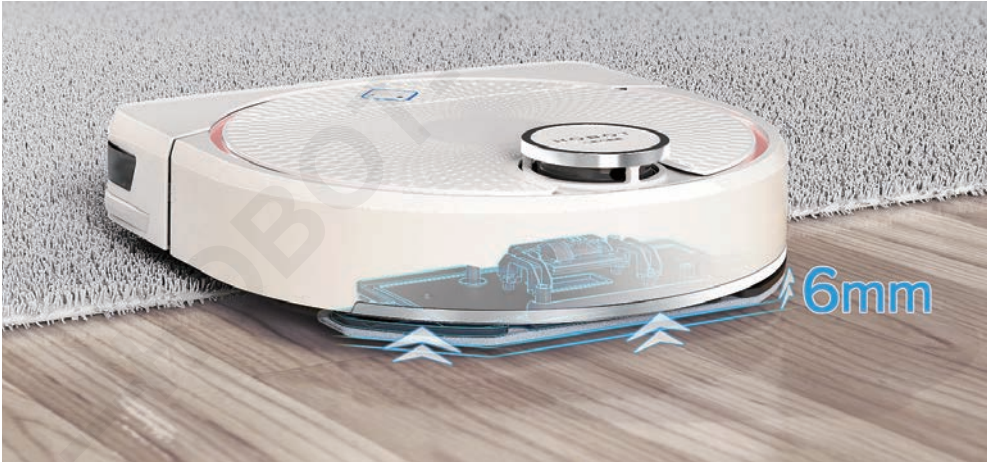

Our unique brushroll with deep-cleaning power can pull in all types of debris and hair on carpets and floors.

# Smart Lifting Mop

## 6mm Above Ground

The smart lifting mop can rise up **6mm** above ground. No more shying away from carpets and floor trims!

## Auto Recognition Mopping (ARM)

LEGEE knows your carpet from your hard floor.

Enjoy squeaky clean floors and dustless carpets after one single clean!

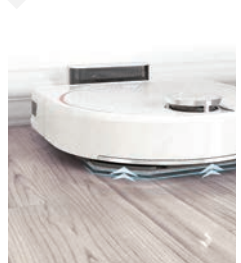

Climb like a boss when detecting obstacles ahead

Wet and mop your hard floors only and keep your carpets dry

Avoid contaminating the floor when returning to the charging station

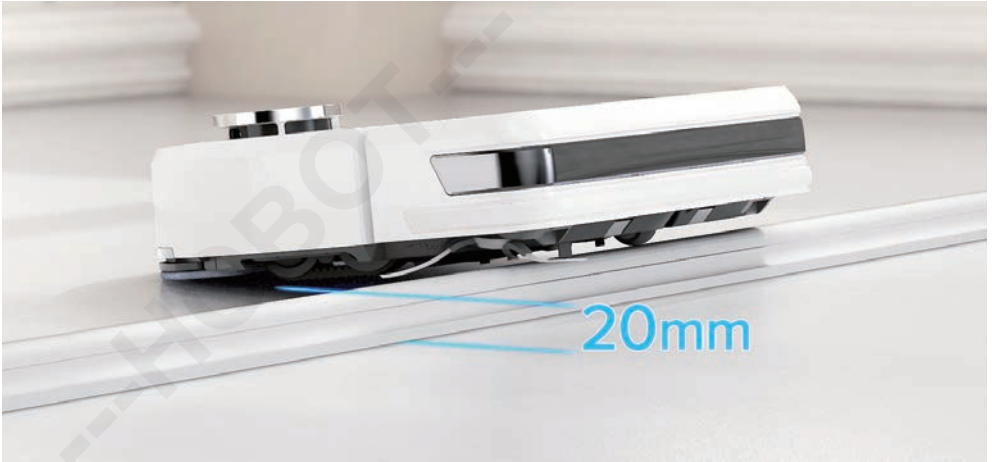

Help ventilation when charging and standing by

# Obstacle Climbing

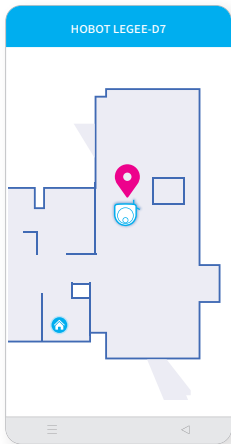

## 20mm Obstacle Climbing Ability

Dealing with various objects in the house, LEGEE-D7 can transition over up to **20mm** obstacle while letting you to decide when to climb over and when not to. Take total control of your clean!

# Full Map Positioning

LEGEE knows your home. LEGEE is able to know its location by recognizing and matching the surroundings with the existing map, anywhere, anytime!

# LEGEE SLAM Navigation

## LEGEE SLAM 7.0

LEGEE (Lidar, Encoder, Gyro, E-compass, and Position Estimation) is our unique navigation system integrating 5 different technologies to help LEGEE to plan the best cleaning route.

## Corner Cleaning

LEGEE's D-shape design allows it to fit well into corners and the side brush extends 4cm from the device, reaching into narrow spaces and sweeping along the wall edges.

### LEGEE-D7

### Other Brand

## 8 Cleaning Modes

# Talent Clean

The Talent Clean is our exclusive patented design, bringing customization to the next level! To match the needs of different floor cleaning, the Talent Clean offers 7 distinctive cleaning modes and 1 personalized option.

All can be assigned to different areas in the house according to your preference.

### Standard Mode

#### **Simply the Best.**

Can't decide which mode to use? You don't have to. Use this one.

### Power Suction Mode

#### **Nothing Escapes.**

Suction power to the fullest. Big or small, suck it all away.

### Tangless Mode

#### **The Hair Remover.**

Effectively removes hair without getting tangled.

### ECO Mode

#### **Go Green!**

A quieter clean for daily use that also consumes less energy.

### Stain Mode

#### **Our Stain Removal Hack.**

Even old stains can't stick around for too long.

### Deep Cleaning Mode

#### **Enjoy a Premium Clean.**

Take the time and give your floor and carpets a comprehensive clean.

### Dry Sweep Mode

#### **Stay Dry and Clean.**

Hardwood floors? Not a single water drop, then.

### Customized

#### **You Are the Boss.**

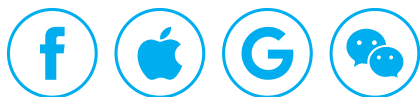

Try with different combinations and create a clean that is unique to you.
