Voice control	No	No	Siri/OK google
Real time map	No	Yes	Yes
Virtual barrier, Virtual box	No	No	Yes
Auto room divider	No	No	Yes
Map memory	No	No	5 Maps
Cleaning diary	No	Yes	Yes
Schedule queue	No	Yes The room can be cleaned with the designated Talent Clean mode.	Yes Each divided rooms can be cleaned with different Talent Clean modes separately.
Talent clean	Standard Mode	There are 8 modes: Standard, Kitchen, Polish, Dry, Strong, ECO, Pet, Customized	There are 8 modes: Standard, Stain Remover , Polish, Dry, Strong, ECO, Pet, Customized

	LEGEE-669	LEGEE-688	LEGEE 7
Talent clean - Kitchen Mode/Stain Remover Mode	No	Divide the area to 1.5x1.5 m ² to cleaning twice LEGEE will spray a generous amount of water to dissolve the stain at the slowest speed in the first round, then go back to mop the dissolved stain at the highest speed in the second round.	Renamed as Stain Remover Mode. Divide the area to 1.5x1.5 m ² to cleaning twice. LEGEE will spray a generous amount of water to dissolve the stain at the slowest speed in the first round, then go back to mop the dissolved stain at the highest speed in the second round.
Talent clean - Pet Mode	No	Increase the suction power, the amount of water as well as the mopping frequency to clean pets' hair, pawprints or stains on the floor efficiently.	Increase the vacuum power, water spray volume as well as the mopping frequency to clean pets' hair, pawprints or stains on the floor efficiently.
Talent clean - Polish Mode	No	Increase the amount of water and mopping frequency while decrease moving speed to compare the clean result of floor waxing, make the floor be bright and shine again.	Increase the amount of water and mopping frequency while lowering cleaning speed to compare the clean result of floor waxing, make the floor be bright and shine again.
Talent clean - Customized Mode	No	Yes, 5 adjustable parameters of Vacuum level, Cleaning speed, Spray level, Mopping frequency.	Yes, 5 adjustable parameters of Vacuum level, Cleaning speed, Spray level, Mopping frequency.
