* Available in two sizes & in non-conductive.

SPECIFICATIONS

SKU	MAX LOAD	WIDTH	LENGTH
H01006	2.5KG 5.5LBS	25MM 1"	90MM 3.5"

HOW TO USE

1

Place Tool Catch with metal ring facing away from the tools center of gravity, white tag facing up.

2

Wrap the tape around the tool 10x while stretching the tape to activate the self-vulcanizing feature, creating a secure connection. Ensure raised 'catch' is not covered by the tape. Pull on Tool Catch with force to test application.

3

Your Tool Catch is now ready to be connected with a suitable GRIPPS® tether via the D-Ring.
