HOW TO USE

1

Surround pipe with Gap Wrap. Overlap central Velcro fasteners strips.

* Do not use on a void that exceeds 100mm.

2

Ensure the fastener strip is firmly pressed all the way along from top to bottom. Fasten all eyelets around piping with suitable ties.

3

Fasten all outer eyelets to gridmesh with suitable ties. Ensure no excessive amount of ties are exposed that may cause a trip hazard.
