## KEY FEATURES

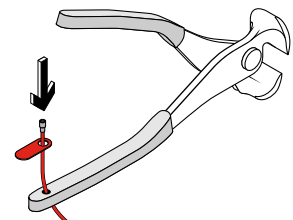

## SPECIFICATIONS

SKU	WEIGHT	LENGTH
H09010	350G	200MM   8.0"

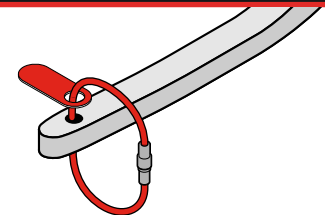

## HOW TO USE

1

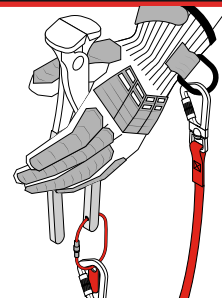

Thread Gripplock Cable through the hole in the tool.

2

Join the two ends of Gripplock Cable together, ensuring a firm application and click sound is heard/felt. Test Gripplock Cable cannot be separated by tugging both ends firmly.

3

Your GRIPPS Nips are ready to connect to a suitable GRIPPS® tether via the supplied Gripplock Cable.
