## KEY FEATURES

## HOW TO USE

**1**

Weave the work belt through the inner side loops of the H01118 back support. At the same time, apply tool holsters to the belt by sliding on each holster (or unbuckle the holster back clip and fold the holster strap over the belt).

**2**

Note the D-Rings of the back support should be located on the top side of the belt.

**3**

Wrap the belt around your waistline and close the buckle to the preferred length. The belt should be a snug fit.
