

# GRIPPS®

## H06030 GAP MAT

*The GRIPPS® Gap Mat is a durable, fire-resistant drop-prevention mat with dedicated anchor points for tethering. With 6x D-rings covering the mat, tools or equipment can be easily anchored.*

The GRIPPS® Gap Mat is easily secured to grid mesh using cable ties (or similar ties), with its 22 eyelets positioned around the edges. GRIPPS® Gap Mat allows personnel to work on grid mesh platforms whilst protecting their tools and equipment from falling through the grating and is reusable thanks to the highly durable mesh.

- Re-use from job-to-job
- High Visibility
- Dual-Purpose
- Custom Sizing is Available

THE LEADER IN FALLING OBJECT PREVENTION
