H07006 SCAFFOLD KEY & LEVEL CONNECTOR PACK

Whether you need to support a scaffold key or a spirit level, this pack includes the GRIPPS Swivel Catch 130mm, which works to prevent tangles when working with hand tools at height.

Easily loop your Swivel Catch through the hole/opening of your Scaffold Key or Spirit Level and connect with your existing belt retractor. The Swivel Catch will help ease tension from your retractor allowing more flexibility whilst working.

The Swivel Catch features a load rated swivel point that allows a 360-degree operational range of motion, while the cord loop provides an easy and efficient tool choke that connects directly to your belt.

2.2 LB **1.0** KG

MAX LOAD:

51 IN **1.3** M

MAX TETHER LENGTH:

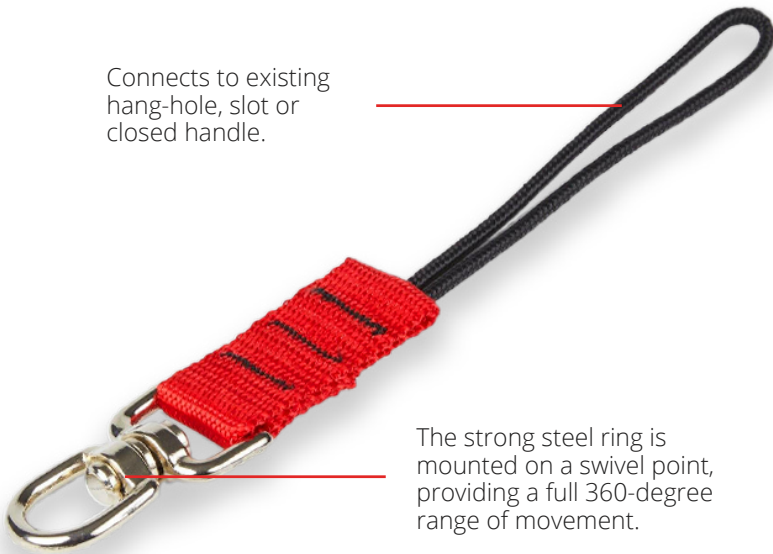

THE LEADERS IN FALLING OBJECT PREVENTION

HOW TO USE

1

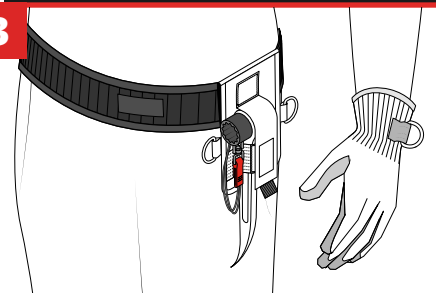

Feed the Swivel Catch cord through the pre-formed hole in the tool.

2

Then feed Swivel Catch back through itself (passing through the loop of the cord) to create a chokehold. Pull firmly to ensure tension.

3

Your tool is ready to apply to a GRIPPS® Retractor within your tool holster.
