## GRIPPS® Seal Kit Bag - 20kg/44lb

### SAFETY INFORMATION

**⚠️ WARNING** Before using the GRIPPS® Seal Kit Bag, read all provided safety information pertaining to the use of your Dropped Tool Prevention (DTP) device. **FAILURE TO DO SO COULD RESULT IN INJURY OR DEATH.**

The user of a DTP device bears the responsibility of reading all safety information contained herein. Keep this manual for future reference.

#### Intended Use:

When used properly, the GRIPPS® Seal Kit Bag can prevent workplace hazards resulting from dropped tools. These may include personal injury and material damage.

GRIPPS® does not approve use of this device for any activities not described in the User Instructions. This device is not intended to be used in any recreational activity, as a personal fall-arrest device or in any other manner not described herein.

**⚠️ WARNING** Misuse of this device could result in serious injury or death.

Adhere to all manufacturer recommendations regarding the operation and maintenance of this device. For additional information, contact GRIPPS® customer support.

Read and adhere to the following in order to ensure correct operational functionality:

- Your DTP should never be used as a personal fall-arrest device or restraint system.
- Do not use this device with tools that exceed the specified maximum load/weight.
- A DTP device used in applications that exceed the limits of operation specified by the manufacturer should be considered unsafe and should be replaced.
- Do not tether a tool over 2.5kg/5.5lbs directly to your clothing or person.
- Inspect your DTP device before each use.
- Ensure the DTP device is securely connected to a load rated tool connector or anchor point before use.
- Inspect any tool connector point before it is connected to the DTP device.
- Modification of the DTP device voids all warranties and violates manufacturer recommendations.
- Do not use a tool that cannot be connected to your DTP in the manner specified by GRIPPS®.
- It is unsafe to extend the length of the DTP product by any means.
- Do not use this product if it will create an unsafe working environment.
- Use extra precaution around moving machinery, moving parts, electrical hazards, extreme temperatures, chemical hazards, or combustion hazards.
- Avoid contact between the Screwlock Cable and rough or sharp edges.
- All connected tools and equipment, including connection points, must be compatible for use with this DTP device.
- Always wear appropriate personal protective equipment.

- If a tether has arrested a dropped tool or object, it should be taken out of service and replaced.
- All procedures shown in this instruction are for GRIPPS® Seal Kit Bag products only.

### GENERAL USE AND CARE

GRIPPS Seal Bags are heavy-duty, hard-wearing, waterproof gear bags designed for the most demanding of industrial work sites. Engineered utilizing reinforced tarpaulin material and featuring detachable shoulder straps and water-resistant zips, these bags are ready for any work site. A solid duffel bag to add to your work gear collection.

#### Before Use:

Thoroughly inspect your GRIPPS® DTP device before each use. Do not use any component that presents deformities or deterioration.

### HOW TO USE / INSTRUCTIONS:

Place tools or equipment inside of the bag as desired.

To manually transport, zip bag closed then put arms through shoulder straps. Adjust strap lengths as required.

When lifting the bag, ensure zip is fully closed, and the two outer large buckles are closed. Attach a lifting hook to one of the three dedicated lifting points.

**\* NEVER EXCEED MAX LOAD \***

#### After Use Care:

Clean and inspect the Seal Kit Bag and any connected tethers. For tougher stains, use warm water and a mild soap or detergent. Do not use again until dry.

Store in a clean and dry environment. Proper care will help to ensure that it will operate effectively and extend its service.
