

PRODUCT AMENDMENT NOTICE:

SKU: H01058

Effective: 06.03.2024

HEAVY-DUTY TOOL-HITCH - 36KG / 79LB

At GRIPPS® your safety is our top priority, and we are committed to providing the highest quality products. Recently, we have identified the need for an adjustment in the specifications of our H01058 - Heavy-Duty Tool-Hitch - 36kg / 79lb.

After thorough testing and evaluation, we have decided to revise the maximum load capacity for GRIPPS® H01058 - Heavy-Duty Tool-Hitch from 36kg/79lb to 32kg/71lb. This amendment requires a new label to be applied to the product. ensuring the correct load rating is observed on site. This change is retrospective and should be applied to all H01058 - Heavy-Duty Tool-Hitch currently in use and those available for sale.

At GRIPPS® we take tethering seriously and have decided to make this amendment to ensure we continue to comply with ANSI/ISEA 121-2018 (American National Standard for Dropped Object Prevention Solutions) and to provide the safety of all GRIPPS® product users, (and those working below them).

Please contact sales.au@gripps.com for more information and to request new product labels.
