SEAL BAG

H01102

GRIPPS Seal Kit Bags are heavy duty, hard wearing, waterproof gear bags designed for the most demanding of industrial work sites.

Engineered utilising reinforced tarpaulin material and featuring detachable shoulder straps and water resistant zips, these bags are ready for any work site.

This light duffel bag is made from heavy-duty weatherproof PVC tarpaulin and features a 20kg (44lbs) load rating. The Seal Bag includes 2" webbing encircles for extra strength and even includes water-resistant zips. With its classic barrel bag design, this tool & gear bag is something industrial workers will love. This bag also contains QR compression straps, end handles, and removable shoulder straps.
