

**MAX LOAD : 2.5KG / 5.5LBS**

# TOOL GRAPPLE®

**CODE : H01123**

Tough and versatile, the Tool Grapple® excels against the rigours of the harshest work environments. Protected by a rubber ABS synthetic housing, the Tool Grapple® contains a PU coated stainless steel woven wire cable that is resistant to heat and abrasion.

Able to be attached to a harness, work belt or wrist band, simply connect your tool to the Tool Grapple® via a GRIPPS® tool connector or tether. The wire tether automatically retracts and has an auto-stopping function that takes the tension out of the tether when the attached tool is in use. Dynamically tested for hand tools weighing up to 2.5kg/5.5lbs.

MAX LOAD : 2.5KG / 5.5LBS
