

#ConquerGravity

MAX LOAD : 0.85KG / 1.9LBS

TABLET GRIPPER

CODE : H02037

The flexible design of the Tablet Gripper allows you to tether your tablet device 'on-demand', allowing you free use of your tablet device when operating at height.

COMPATIBLE WITH
ANY STANDARD TABLET

Now you can tether your tablet or ipad without the need for a permanent or semi-permanent connection point. Used in conjunction with a load rated tether, the Tablet Gripper uses purpose-built silicon to create a load rated tethering solution with zero impact on device operation.

Unlike some traditional device tethers that apply directly to your tablet device and may cause damage to the surface when removed, the GRIPPS Tablet Gripper easily slides over your entire device. The GRIPPS Tablet Gripper provides you with a load rated tethering solution with zero impact on device operation.
