

#ConquerGravity

MAX LOAD : 2.3KG / 5.0LBS

# C5 FLEXILITE MKII

TETHER ANCHOR

CODE : S21625

ANSI/ISEA 121-2018 COMPLIANT

The new and improved C5 FlexiLite MKII features exceptional flexibility and comfort, with a super lightweight, cut-resistant finish.

Like all GRIPPS gloves, whenever you're carrying the C5 FlexiLite MKII around the worksite, you're also carrying a fully load rated drop prevention system. The patented tether anchor point is engineered directly into the glove and is load rated for any tool weighing up to 2.3kg.

The key benefit of tethering to your wrist is the ability to maintain full dexterity and range of motion while on the job. With nothing attached to a belt or external structure, you're free from tangles, tension and catches.
