KULLBERG
We Teach. We Inspire. You Shine.

Check out this wild ride through a jungle of textures - rough, moist, shiny, iridescent, bumpy, feathery - this 5-Part Series is a sensory overload! In these five classes, dive into the art of mastering animal textures like a pro.

Week 1: Elephant Skin

In the first class, get ready to tackle the tough, leathery skin of an elephant with Isobel as your guide. Uncover the secrets of layering pencils for that rough skin look and dive into creating intricate details that make these majestic creatures come to life.

- Become a pro at layering pencils for that authentic elephant texture.
- Discover the magic of different pencil strokes to recreate the unique skin pattern, wrinkles, and folds of elephants.
- Conquer the world of color pencils layering like a boss.
- Unleash the power of the White Tac (Soft Kneadable Eraser) to add highlights and textures like a pro.

Curious about the art of creating highlights on textured skin? Isobel's got you covered with her top-notch techniques to elevate your artwork to the next level!

Week 2: Frog: Blue Poison Dart Frog

Get ready for a wild ride in the second class of this series, where you'll dive into the world of layering colored pencils to bring the vibrant hues and deep shadows of the infamous Blue Poison Dart Frog to life. Frogs may seem smooth, but some pack a surprise with a grainy texture, making that dewy look a real challenge. Isobel is here to spill the beans on using a Colorless Blender, nailing layering tricks, and picking the perfect colors to nail that glossy, dewy effect on both types of froggy skins.

- Unveil the secrets to achieving a dewy look on smooth and grainy frog textures.

- Unlock the power of the colorless blender for that dazzling finish.
- Hone your skills in creating vivid colors and deep shadows for drawings that pop.
- Learn the ins and outs of using a colorless blender like a pro.

Week 3: Peacock Feather

Peacock feathers are like the rockstars of the art world! And drawing feathers can be a real head-scratcher with all those tiny details! Get ready to dive into a vibrant world of colors and details with Isobel as your artistic guide. Isobel shares all her secret techniques like burnishing, and wielding a Slice Cutter, to make drawing these intricate beauties a piece of cake.

- Unleash your inner artist with a Slice Cutter on a textured surface for top-notch results.
- Discover the magic of layering and burnishing to capture the vivid hues of a peacock feather.
- Dive into the world of color theory and layering to whip up your own mesmerizing palette.
- Get the lowdown on using a Slice Cutter like a pro for those intricate details.
- Master the art of burnishing with color pencils.
- Put that Colorless Blender to work like a champ in your artwork.

Week 4: Snake: Black Water Python

In this fourth class of the series – you will master the art of creating mesmerizing iridescent effects with just colored pencils, inspired by the majestic scales of a black water python. Discover the secrets to adding depth and contrast to your artwork, making your creations burst to life with vibrant black tones. Unleash your inner artist as you learn simple yet effective techniques to achieve stunning results and give your drawings that eye-popping 3D effect!

- Achieving an iridescent effect might seem challenging, but with some basic techniques, you can create impressive results.
- Enhance the vibrancy of black tones in your drawings to make them more dynamic and lively.
- Master the art of creating a 3D effect by effectively utilizing contrast.

Week 5: Chameleon

In this grand finale class Isobel is here to unveil the secrets of mastering these color-changing wonders. Unravel the art of recreating the intricate scales of a chameleon with ease, using simple steps. From soft, glossy hues to bold and striking colors, this class is a feast for the eyes!

- Unleash the magic of layering pencils to create a stunning mix of colors, with tips on achieving vibrant contrasts.
- Master the art of blending to achieve that silky smooth finish.
- Explore the world of realistic scales, from flat to bumpy to raised, using shadows and highlights.
- Dive into the world of pencil layering and blending for a spectrum of stunning color effects and that flawless finish.
