

This detail is indicative. It is not a definitive design or working drawing .

Pipe runs and detail shown are simply schematic.

Heat Pack Overview

Ref: SQ 210DE
Diesel Boiler
6 circuits 4 Zones

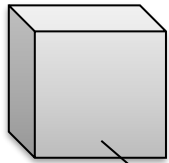

QUALITY DESIGN. BUILT-IN RELIABILITY.

From Ireland Energy efficient Warmflow condensing boilers, designed and developed to run efficiently using New Zealand

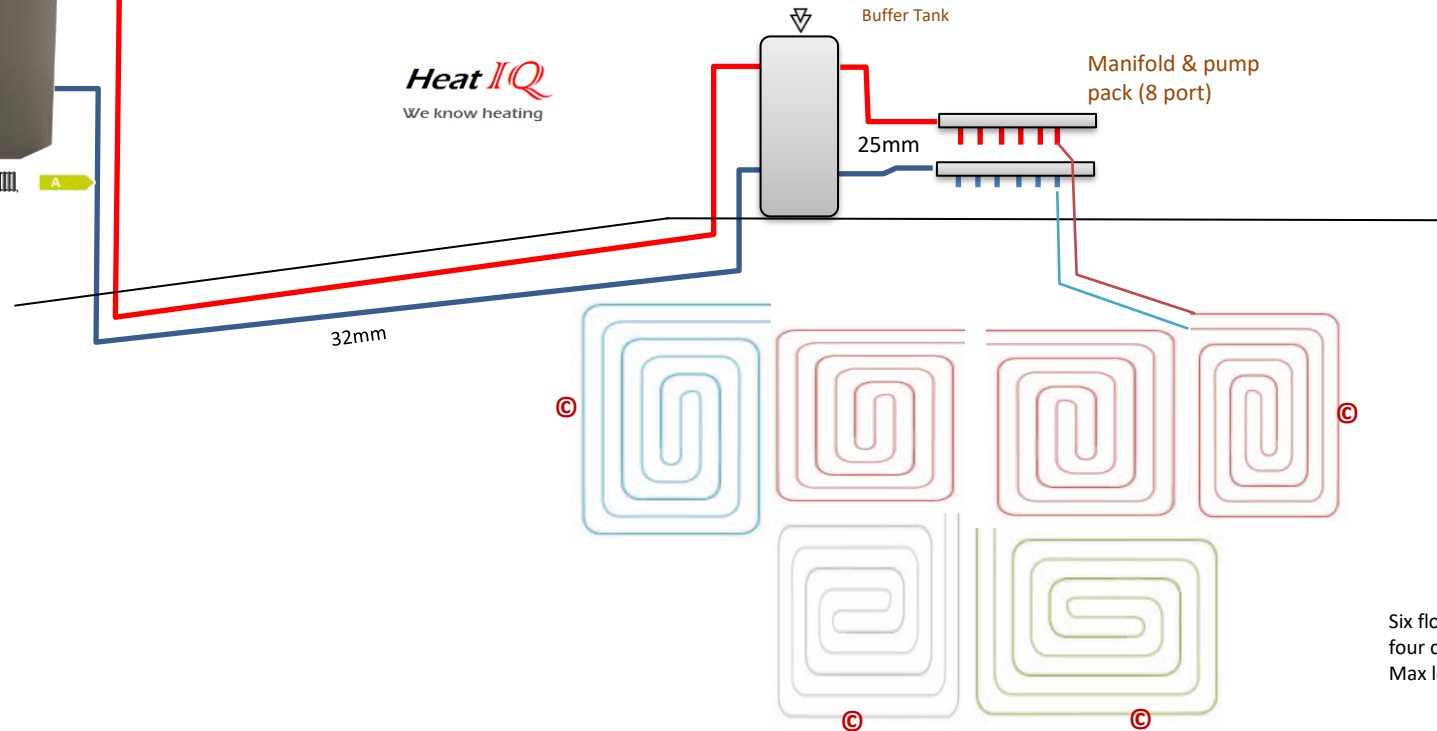

We supply only high quality pipe fittings Manifolds and valving

Touch screen control with floor sensor

25m fuel line pack with isolation valves fire valve and filter are included in package
Oil storage tank is extra

Six floor loops forming four control zones
Max loop length 110m
