

W W WARMFLOW

QUALITY DESIGN. BUILT-IN RELIABILITY.

RIELLO

Agentis Diesel boilers by Warmflow offer efficient and effective heating performance.

Available in internal and external model format these condensing boilers all incorporate the world renowned #1 RDB2.2 pressure jet oil burner from Riello (Italy)

External models include an integral balanced flue. All models includes the heating system pressure vessel, system filling point and the system circulating pump making installation simple.

Same dimensions different outputs

16 to 21 Kw models 900 h x 700 deep x 413 w

21 to 26 Kw models 900 h x 700 deep x 413 w

26 to 33 Kw models 900 h x 700 deep x 413 w

Agentis boilers are condensing boilers extracting more heat that conventional boilers simply waste through the flue

More Heat Less Fuel

Unlike many boilers sold in New Zealand which were originally designed for use with Kerosene , Warmflow boilers were designed with Diesel in mind so a single annual service is all that's required
