

Voda+ Magnetic Filtration By Heat IQ

Today's Energy efficient Heat source appliances incorporate a wide range of metals and their alloys in their manufacture. These appliances can be susceptible to the corrosive and cross metal effects of Ferrous deposits within the system.

By capturing ferrous Iron and steel deposits Voda+ Magnetic filtration provides high level protection to the Heat exchanger and other vulnerable internal components.

HIQ 056GB Voda+

3/4" (20mm) Under boiler Filter for wall hung gas boilers up to 42kw

HIQ 057 Voda+ Max

1" (25mm) in line model suitable for Diesel and Air to water Heat pump protection

IQ Voda+ Magnetic Filters

Easy to install : Easy to service.

**3YEAR
WARRANTY**
