

VISOR SYSTEM

FIXED AND NVG OPTIONS

THE BATLSKIN CAIMAN™ VISOR SYSTEM is a lightweight and easy to use protective enhancement to the Batlskin Head Protection System. It provides flawless optics to ensure the soldier is never distracted from the mission, and gives users multiple options for integrating with modular systems and headborne accessories. The Fixed Arm Visor attaches to the Wilcox® L4 Series Shroud and the NVG Arm Visor attaches to the Wilcox L4 G24 Mount.

KEY FEATURES

- Lens is optically engineered ensuring flawless optics throughout the eyes' range of movement
- Lens is coated with high performance anti-fog coating, that also protects against scratching and common military chemicals
- Simple and ergonomic design for ease of use; one-handed attachment without tools or removing helmet
- Maintains a low profile in up position - reduces interference in enclosed spaces
- Available in FT-2 Laser Protective lens

FT-2 LASER PROTECTIVE LENSES

FT-2 laser protective ballistic lenses are made with innovative laser dye technology and have been carefully formulated to maximize protection-optical density (OD) - and minimize impact on the field of vision-maintaining the highest possible visible light transmission (VLT) - while providing ballistic fragment and impact defense in hostile situations.

PROTECTED LASERS	OPTIMIZED PROTECTION	VISIBLE LIGHT TRANSMISSION (VLT) PHOTOPIC/SCOTOPIC
Violet	405nm OD4	42% / 6%
Blue	445nm OD4	
Green	532nm OD4	

DESIGNED TO THE FOLLOWING PERFORMANCE STANDARDS

- ANSI/ISEA Z87.1-2010 "American National Standard for Occupational and Educational Personal Eye and Face Protection Devices"
- ANSI/ISEA Z87.1-2015 "American National Standard for Occupational and Educational Personal Eye and Face Protection Devices"
- MIL-PRF-32432 (GL) "Performance Specification Military Combat Eye Protection (MCEP) System"

VISORS

	NVG	FIXED
WEIGHT	0.15 lbs (0.07 kg)	0.22 lbs (0.1 kg)

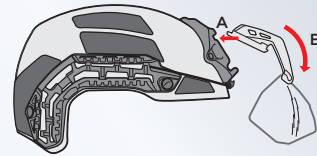

Weights indicated are nominal. Actual weight may vary.

NVG VISOR

The Caiman NVG Visor is adjustable but must be attached to the Wilcox L4 G24 or G22 NVG mounting arm* once installed on to the front mount.

* Sold Separately

FIXED VISOR

The Caiman Fixed Visor attaches directly onto the front mount but does not allow for any visor adjustably.
