Quick Start Guide

Getting started with Raven Scanner

Raven Scanner
Standard
(USB)

## 1 Installing Raven Desktop and Scanner Drivers
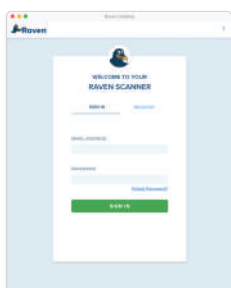

1.1 Download Raven Desktop from **Raven.com/Desktop** and install on your computer.
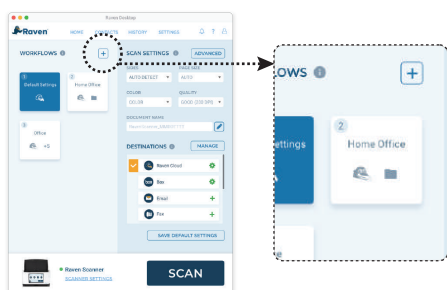

1.2 Choose the Standard Scanner in the installation wizard.

1.3 Choose the USB connection method to your scanner, using the USB cable included in the box.

2 Scanning with Raven Desktop

2.1 Home screen shows available workflows, scan settings and destinations. Create custom workflows by clicking the ⊞ button.

2.2 Click the ADVANCED button to choose additional scan settings.

2.3 Set up and manage destinations by clicking the MANAGE button. Click the button to save to folders on your computer.
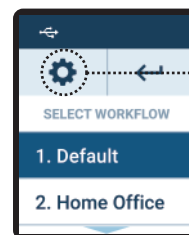

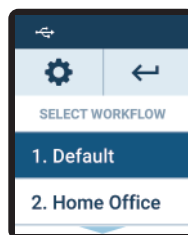

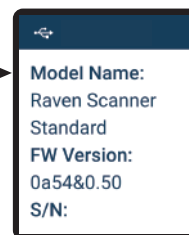

3 Using the Scanner Interface

3.1 Power on your scanner once connected to your computer by USB cable with Raven Desktop open.

3.2 Select a saved workflow and press the ▷ button to begin scanning. Workflows can be managed in Raven Desktop for pre-defined scan settings and destinations.

3.3 Settings allows for viewing scanner information.

Scanner

Power Cables

USB Cable

2   Install the scanner

2.1 Remove all tape and protective packaging from the scanner.

2.2 Lift open and fully extend the feeder tray.

**2.3** Pull down the output tray and raise the stopper to prevent paper from falling.

3   Connect to the power and computer

3.1 Assemble the power adapter plug, then plug into the scanner and a power outlet. Press the power button to power on.

3.2 Connect the USB cable to the scanner and an available port on your computer.

3.3 Visit **Raven.com/Desktop** to download Raven Desktop and drivers to your Mac or PC.

3.4 Open Raven Desktop on your computer and follow steps to finish setup and begin scanning.
