

12VAC Transformer IP67

AT200va W/P

12VAC Dimmable Weatherproof Transformer IP67

ORDERING INFORMATION

Order code	10575
Description	200W 12Vac Dimmable Weatherproof Transformer
Driver Power	200 W
Driver Type	Dimmable (Phase cut)
Item Code	AT200va W/P

MECHANICAL

IP Rating	IP67
------------------	------

ELECTRICAL

Input Frequency	50 Hz
Input voltage	230Vac

In Australia the Input voltage is defined as 230Vac -6%/+10%. This effectively means that the voltage range of these products are 216Vac - 253Vac or 240V +6%

Switch Type	Inline
--------------------	--------

DRIVER

Dimmable	Yes
Driver Mode	Constant Voltage
Driver Type	Dimmable (Phase cut)
Driver Power	200 W
Output Voltage Range	12VDC V

COMPLIANCE

Standards	AS/NZS 61558.1 AS/NZS 61558.2.6
------------------	------------------------------------

12VAC Transformer IP67

AT105va W/P

12VAC Dimmable Weatherproof Transformer IP67

ORDERING INFORMATION

Order code	10680
Description	105W 12Vac Mini Weatherproof Transformer
Driver Power	105 W
Driver Type	Dimmable (Phase cut)
Item Code	AT105va W/P

MECHANICAL

IP Rating	IP67
------------------	------

ELECTRICAL

Input Frequency	50 Hz
Input voltage	230Vac

In Australia the Input voltage is defined as 230Vac -6%/+10%. This effectively means that the voltage range of these products are 216Vac - 253Vac or 240V +6%

Switch Type	Inline
--------------------	--------

DRIVER

Dimmable	Yes
Driver Mode	Constant Voltage
Driver Type	Dimmable (Phase cut)
Driver Power	105 W
Output Voltage Range	12VDC V

COMPLIANCE

Standards	AS/NZS 61558.1 AS/NZS 61558.2.6
------------------	------------------------------------

12VAC Transformer IP67

AT100va W/P

12VAC Dimmable Weatherproof Transformer IP67

ORDERING INFORMATION

Order code	10573
Description	100W 12Vac Dimmable Weatherproof Transformer
Driver Power	100 W
Driver Type	Dimmable (Phase cut)
Item Code	AT100va W/P

MECHANICAL

IP Rating	IP67
------------------	------

ELECTRICAL

Input Frequency	50 Hz
------------------------	-------

Input voltage	230Vac
----------------------	--------

In Australia the Input voltage is defined as 230Vac -6%/+10%. This effectively means that the voltage range of these products are 216Vac - 253Vac or 240V +6%

12VAC Transformer IP67

AT060va W/P

12VAC Dimmable Weatherproof Transformer IP67

ORDERING INFORMATION

Order code	10665
Description	60W 12Vac Mini Weatherproof Transformer
Driver Power	60 W
Driver Type	Dimmable (Phase cut)
Item Code	AT060va W/P

MECHANICAL

IP Rating	IP67
------------------	------
