

Key Corn 22W E27 LED Lamp

Description

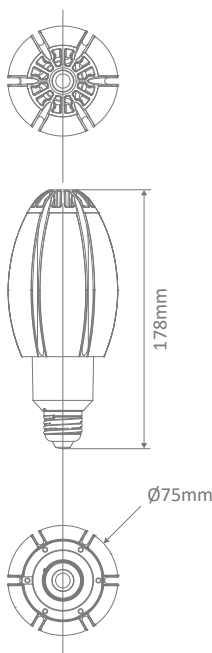

The Key series Corn Lamp provides a great solution as a replacement to traditional high intensity discharge (HID) lamps. Featuring a low wattage, high lumen output lamp in a compact design and replaces the need for remote control gear. The 22W model can replace a 70W Metal Halide Lamp in comparable output, with the advantage of less operating heat, less power consumption and standard 240V operation (old gear needs to be removed and bypassed). Offers a wide 330° beam angle and the choice of Warm White (3000K), Neutral White (4000K) and White (5000K) colour temperatures. Suitable for most bollard lights, postlights, and industrial lighting such as lowbays.

Specification Features

Input Voltage:	240V
Power (W):	22W
IP rating (IP):	62
Lumens (lm):	Warm White 3000K - 2500lm Neutral White 4000K - 2750lm White 5000K - 3000lm
LED type:	SMD
CCT:	3000K - 4000K - 5000K
CRI:	≥75
Beam angle (°):	330°
Dimmable:	No
Lifespan (hrs):	50,000hrs
