Fan Speed Control

Select or change fan speed between low, medium & high

Fan On/Off Control

Press once to turn your fan on or off

Specifications

Operating range

Range will vary based on smart device hardware, site conditions, battery level and other factors. Most reasonably sized rooms should be easily covered.

Electrical specifications of receiver

Fan AC Motor: 230-250V, ~50 Hz, 100W

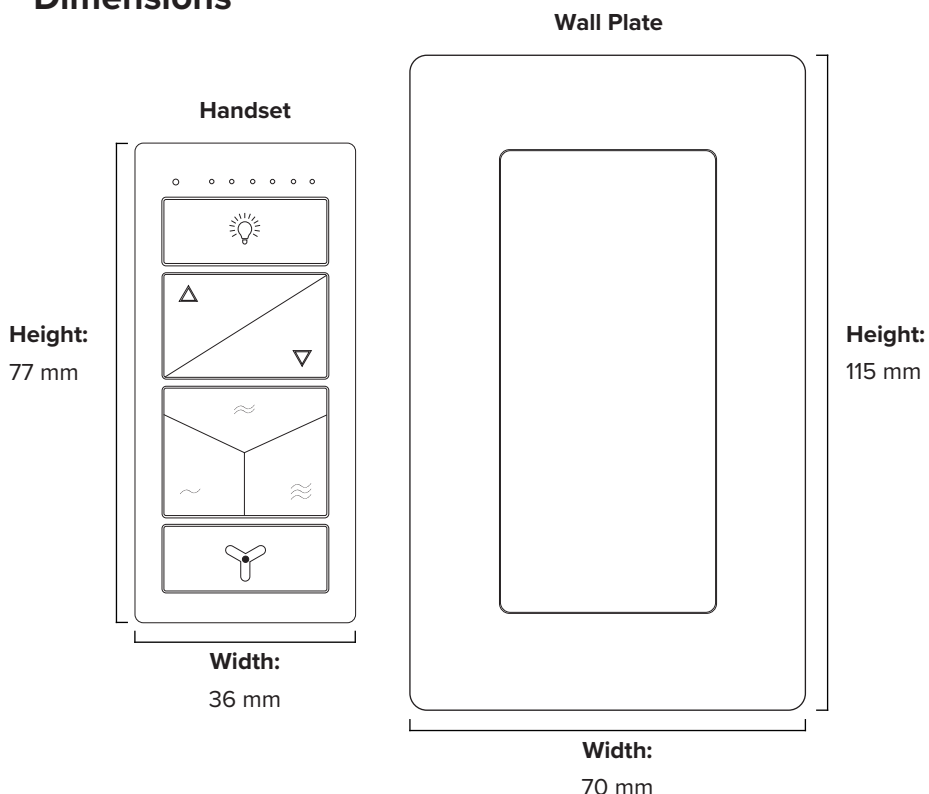

Incandescent lamp: Max 100W

LED lamp: Max 40W

What's included

The Mi Remote Control includes the remote control handset, wall plate and remote control receiver.

Dimensions

Warranty

The Mi Remote control is covered by a 12 month on-site warranty for defects and manufacturing faults with the remote receiver. Where there is a fault or defect with the hand piece in the first 12 months, a replacement unit will be supplied which can be paired to the existing remote receiver without requiring an electrician.

TWELVE MONTH | **ONSITE** WARRANTY

Mi Smart

The **Mi Smart Remote Control** is a modern and stylish remote control solution for your ceiling fan and light that provides three fan speeds, light control (with dimming support) and optional smart phone app control.

Three Fan Speeds

Control the speed of your fan from the remote control and smartphone app

Light Control

Switch your ceiling fan's light on or off with the touch of a button

Light Dimming Support

When used with compatible lights, control the brightness with dimming

Smartphone Control

Enjoy the added convenience of controlling your ceiling fan and light directly from your smartphone with the freely available app.
