GALACTIC PILLAR

SKU:OL7021BK

Pillar Mount Accessory for Galactic

Description

Galactic post top spheres can be used on their own, atop a pillar. However when the pillar is larger or taller, they can become *ælost*. This accessory raises the sphere from the pillar (by 100mm) which looks smarter and provides better light output. Galactic post tops are sold separately in a variety of sizes. Pictured with a 25cm Galactic acrylic post top (OL7010/25OP) this unit now sits at 350mm high.
