

STRIP-120 Flexible LED Strip

Description

Introducing STRIP-120 LED strip lighting system. STRIP-120 is the first in the line-up of high performance LED strip lighting in the Domus offering. New possibilities can be realised in the way we illuminate areas and surfaces. The secret lies in its thin and flexible PCB which allows for long and linear lengths to be performed with ease. With added advantages such as a higher number of SMD LEDs over a smaller area STRIP-120 gives that almost seamless continuous line of light with no visible spotting.

Specification Features

Colours:	3 colour options available
Light Source:	3020 SMD LED
LED Type:	Epistar (Taiwan)
Colour Temperature (K):	3200K, 4000K, 6500K
Colour Rendering Index:	≥83
Number of LED per mtr:	120
Wattage Per MTR (W):	19.2W
Input Voltage (VDC):	12VDC
Beam angle (°):	120°
Wiring:	Parallel
IP Rating:	IP20
Cutting Increments/Sections:	25mm (group of 3 LED)
Requires:	12VDC constant voltage driver
Dimmable:	Yes* DALI, 0-10V, DMX-512, RF
IES files:	Yes**
Mounting:	Optional aluminium mounting profile***

* For dimming options please refer to the controller section for further details.

** Available upon request.

*** Due to the nature of this LED strip light, the use of a aluminium mounting profile in mandatory for heat dissipation (not included).

Order Info

Colour Temp: 6500K
Order Code: 20019
Product Code: STRIP-120-65K
Lumens/m: 1497 lm/m

Colour Temp: 4000K
Order Code: 20008
Product Code: STRIP-120-40K
Lumens/m: 1476 lm/m

Colour Temp: 3200K
Order Code: 20020
Product Code: STRIP-120-32K
Lumens/m: 1322 lm/m
