Avoid contact with skin, eyes, or clothing. Avoid inhalation. Always keep container tightly closed and labeled. Avoid eating, drinking, and smoking near areas where material is stored or handled. Wear appropriate glove eye, and face protection. Follow good personal hygiene. Store in a cool, dry area with adequate ventilation. Keep container tightly closed when not in use. Empty containers should be completely drained, properly closed and returned to a drum or container disposal service. Do not reuse or alter containers in any way. No Information Available rsonal Protection Not established Avoid high temperatures while processing. Appropriate ventilation is required where product is handled and used. Minimize environmental release. Respirators should be selected based on the form and concentration of contaminant in air and in accordance with OSHA( CFR 1910.134). Usually not required.
