COLOUR HUNT

This is a open ended play card that can be used in all different ways, some of our family favourites are:

- Colour scavenger hunt -use the card to find something of each colours. Can be used inside or outside.
- Colour bingo - Make it a fast paced game of bingo by calling out a colour and having the kids run to get something to match.
- One colour - Choose one colour and a have the kids search for things the same. This is a great learning tool for colour recognition.
- Make your own - Instead of printing you can create your own colour hunt with collage, paints, textas or even items from nature

I would love to know how you use this in you home!
