Make feeding your calves easier with our Calf Tender Standing Utility Vehicle Dispenser!

Features:

- Comes as a complete feeding unit with vehicle.
- Pasteurized milk is pumped into unit.
- Dispenses easily with a foot pedal dispenser.
- 150 gallon tank capacity and can be hooked up to a pasteurizer to wash.
- The Calf Tender has a very short turning radius allowing users to use this tank and vehicle combo to feed calves in calf barns with small aisles.
- Calf Tender has an all steel frame with dual front wheels and an adjustable backrest.

How does it work?

- Pasteurized waste milk pumps into the tank from the pasteurizer.
- 1,000 pound capacity makes it the perfect for feeding many calves.
- Easily programmed feed amount settings.
- Push the foot pedal to distribute to your calves.
- When finished, the tank can be attached to the pasteurizer to wash by pushing the wash button on the tank control box.
- A spray ball inside the tank allows for washing with the pasteurizer. If not washing with a pasteurizer, there is an option to add on an automatic wash.
