OnDemand Combined Rhythm & ECG Interpretation for Nurse Practitioners in Non-Critical Care Areas

Agenda: Approximately 8 hours

- The RIRI approach to ECG Interpretation:
 - Rate – Intervals – Rhythm – Infarction/Ischemia
- **Rate:** various ways to determine heart rate on an ECG
- **Intervals:** a review of normal conduction and intervals
 - PR Intervals: AV blocks & WPW practice
 - QRS Complex: how to manage bundle branch blocks, what are other causes of a wide QRS?
 - QT Interval: which of your patients are at risk?
- **R- Rhythm:** a brief review of common rhythms and treatment approach
- **I- Ischemia/Infarction:** Acute Coronary Syndrome and Case Studies
 - Treatment management in the acute and long-term phases
 - Differentiating MIs: Acute vs. Recent vs. Old
 - Case Study: Anterior MI and long-standing heart failure
 - A review of LV function on the Echo
 - A discussion on current heart failure guidelines
- Case Study Jeopardy: Reviewing various ECGs with discussion on Management

Cost: \$145. Includes comprehensive course material, a course certificate, and access for a full year. Darlene is available by phone or email with any questions.

Registration:

Option 1: E-transfer to darlene@qrseducation.com. Please add the course you wish to attend, as well as your email address and phone number in the comment section.

Option 2: Register and pay by credit card by choosing the 'OnDemand Courses' tab online at <https://www.qrs-education.com/collections/courses>

About the Workshop: The focus of this day is geared to Nurse Practitioners working in Family Practice, Geriatrics, Mental Health, and Non-Critical Care Inpatient Units. No prior experience with rhythm interpretation? Please attend the Novice Rhythm Interpretation first.

About the Presenter: Darlene Hutton MSN, has experience as a Staff Nurse in CCU, ICU, Emergency, PACU; Critical Care Educator; CCU Manager; and Research Manager.
