

QRS Tip for Emergency Cardiac Care

Unstable due to heart rate?

**No, heart rate is ok or
Sinus Tachycardia**

**Yes, heart rate too fast?
(other than sinus tachycardia)**

Yes, heart rate too slow

Chest clear?

Pulse ?

No pulse?

Think pacing

**If yes: give volume
If no: give inotrope**

**Valsalva
Cardioversion**

**Start CPR
Defibrillate immediately**

Stable? consult

**Asystole: CPR, epinephrine, treat causes
PEA: CPR, epinephrine, treat causes**
