

SIZE GUIDE

When printing, make sure 'Fit to page' is selected.

HOW TO MEASURE YOUR RING SIZE

- decide where you want to wear your ring
- wrap a piece of string around your finger at its widest point (usually the knuckle)
- mark the spot where the ends meet and measure
- use our size guide to figure out which ring would be the best fit

If you already have a ring that is a perfect fit, measure its inside diameter and use the size guide to find the size.
