OVERVIEW

IN THE BOX

(1) Base Frame | Grain Mill Kit
(1) Base Plate | Grain Mill Kit
(1) Top Plate | Grain Mill Kit

(1) Top Frame
(4) 12” Leg
(4) Threaded Foot

(14) Silicone Hole Plug
(4) 3/8” - 16 x 2” Stainless Steel Frame Screws
(4) M6 x 1 16mm Stainless Steel Grain Mill Mounting Screws

(7) Silicone Strip
INSTRUCTIONS

FRAME ASSEMBLY

1. Apply a Silicone Strip to each top face section of Top and Base Frame.

2. Insert the Threaded Feet through the corner holes on the bottom side of the Base Frame (opposite the side that has the Silicone Strips applied). The washer on the Threaded Feet should be in direct contact with the bottom face of the Base Frame.

3. Place the Base Plate on top of the Base Frame so that the Threaded Feet pass through the corner holes of the Base Plate. Note that the Base Plate has formed countersinks that insert into the holes on the Base Frame.

4. While holding the leg steady, thread the Threaded Feet into the Legs to fasten the Base Plate and Base Frame together. Wait to fully tighten the Threaded Feet until step 8.
5. Place Top Frame onto the Legs with the Silicone Strips facing up.

6. Place the Top Plate onto the Top Frame so the cutout in the Top Plate will sit over the cutout in the Base Plate. The Top Plate has formed countersinks in the corners that will register in the holes on the Top Frame.

7. Use the four 3/8” - 16 x 2” Stainless Steel Frame Screws to secure the Top Plate and Frame to the Legs.

8. Tighten the nuts on the Threaded Feet until just past snug.

9. Insert the Silicone Plugs into any of the unused accessory mounting holes in the Top and Base Frame.
INSTRUCTIONS

GRAIN MILL MOUNTING

To attach the Grain Mill to the Brew Cube, position the Grain Mill on the Brew Cube so that the four outside mounting holes line up with the four holes in the Brew Cube Top Plate. Use the provided (4) M6x1.0x16mm screws that came with your Brew Cube | Grain Mill Kit to secure the Grain Mill to the Top Plate as shown in the diagram below. Tighten the screws until just past snug. Do not over tighten.
