**End message, power off**

- When the massage function in a state of start-up, click "massage on/off" icon, will turn off all the massage function, the back rest and calf rest restore automatically; or the time is up, all the massage function will off, but the back rest and calf rest will not restore.
- Turn off the power

Figure of power on/off position

Method figure of turn off the power

**Note:** Only when the power is off, then you can take off the power plug from the socket.

**Wireless blue tooth music player operation**

- The music player with blue tooth function (such as mobile phone, mid pad), after connected with the blue tooth module on the massage chair, it can transmit the music to the sound system of the massage chair to play music by blue tooth.
- Please refer to the bluetooth connection way above when you need to connect the soundsource equipment with bluetooth of the massage chair.

**Standard configured function**

- Mobile phone music: with mobile phone pocket on left armrest, the users can connect the massage with blue tooth, enjoy music when massage.
- With two 3D digital sound system equipped on each upper armrest, connect with the mobile phone, and the music come out from the 3D digital sound system. You can enjoy the splendid music and massage while relaxing.
- Blue LED light in both armrest

Cell phone pocket

3D digit audio

LED blue light artistic effect

**Am rest installation**

- Find out the plug respond to the arm rest on the bottom of the seat frame, and through out from the square hole which on the fixed steel board.(figure 1)
- When the plug out from the square hole on the steel board, respond to every connecting plug( figure 2)

( Figure 1)

( Figure 2)

- Draw out the plug on the bottom of the seat frame and connect with the arm rest joint, air pipe responded to the right place (figure 3)
- After connect the responded connector, insert it gently through the square hole on the bottom of the seat frame, be careful to avoid to fold the air pipe (figure 4)

( Figure 3)

( Figure 4)

- As figure, the pin on the arm rest respond to the box on the fix board, the steel board respond to the groove of arm rest.(figure 5)
- Hold the arm rest with your hands, pin respond to box on the front part of the steel board, and pin respond to box on the behind of the armrest,( check the connect wire whether it is insert in to the bottom of the armrest frame, avoid to get stuck), the whole arm rest covered on the fixed steel board. (figure 6)

( Figure 5 )

( Figure 6 )

Note: the connect wire must be insert in the right place, avoid to get stuck

- Arm rest covered on the fixed steel board, then press the armrest make sure the pin into the box on the fixed steel board, and pull it with your hand to check it is fasten tightly.(figure 7)
- Find out the install hole on the front part of the fixed steel board, screw the screws with hex wrench. (Figure 8)
- Find out the install hole on the behind part of the fixed steel board, screw the screws with hex wrench, finish the installation, the same installation of the two armrest. (figure 9)

( Figure 7 )

( Figure 8 )

Figure: hex head screw fixed in front part of armrest

( Figure 9 )

Figure: hex head screw fixed in behind part of armrest

## Handle controller frame installation

- Ready for the handle controller tray, steel pole, take out the fixed screws on the handle controller tray. (Figure 1)
- Insert the ball joint of the steel pole to the concave spherical of the handle controller tray.(figure 2)

( Figure 1 )

( Figure 2 )

- Screw the screws in to the hole which got in step 1 and tighten it, take care the direction, should be screw it from right to left. (Figure 3)
- Prepare the handle controller frame assembly in step 3.(figure 4)

( Figure 3 )

( Figure 4 )

- Insert the handle controller frame assembly in to the cylindrical fixed pipe, be carefully that the two groups hole out side and inside should be one to one correspond.(figure5)
- Prepare two screws which tighten on two sides (figure 6)

( Figure 5)

( Figure 6)

- Screw the two screws on two sides make it tighten, finish the installation( figure 7)

( Figure 7)

### Controller installation and usage

- Insert the handle controller in to the frame (figure 1), the frame can turn left and right freely. (Figure 2) and the handle controller can swing freely in horizontal direction.

( Figure 1)

( Figure 2)

( Figure 3)

### Note:

As below are the selective parts, users can choose the different manual controller support and manual controller according to the actual needs.

### selective manual controller support and manual controller installation

### Preparing before installation

- Put the spring in the mounting hole of the upper support (figure 1)
- Insert the plastic (figure 2)

( Figure 1)

( Figure 2)

- Install the manual controller tray on the top of the support and tighten it. (figure 3)
- Tighten the hexagonal on the manual controller tray, fixed on the support. (figure 4)

( Figure 3 )

( Figure 4 )

- Make the hole on the bottom of the support aim at the reserved pipe on the armrest (figure 5), then insert the support on the fixed pipe. (figure 6)

( Figure 5 )

( Figure 6 )

- Adjust the direction and the position of the support, make sure the screw hole matched well with the screw hole on the fixed pipe. (figure 7)
- Screw the three screws which on the connector holes and make it tighten, finish the installation.

( Figure 7 )

( Figure 8 )

- Press the buttons on the sides of manual controller tray, and make sure the cavity on the back cover of the manual controller aimed at the manual controller tray to install it. (figure 10)

( Figure 9 )

( Figure 10 )

- Loosen the buttons after you install it, rotate the manual controller till you hear the crack clicks (figure 12), then you can make sure the manual controller installed well, and finished the installation.

( Figure 11 )

( Figure 12 )

- The manual controller support can rotate 360 degrees horizontally after the installation. ( figure 13), and the manual controller tray can rotate left and right, up and down. ( figure 14)

( Figure 13 )

( Figure 14 )

### The disassemble and using of pillow pad and back cushion

- You can weaken the kneading strength of the neck and shoulder by pillow pad, you can use it according to your requirement (Advise you use it). Back cushion connect with back by zipper (1), pillow pad connect with the back cushion by fastener (2)

### Floor Protection

- Put the heavy massage chairs on the wood floor for a longtime may damage the floor, so please place a carpet or other object to avoid this damage.

#### Caution

Do not move the chairs with its wheels on wood floor, rough ground or in a narrow space. Two people are required to lift the chair.

### Method Of Movement

- Make sure that all wires are far above the ground, tilt the backrest backward to a certain degree (with the gravity center resting on the wheels), push the chair forward or backward with your hands and finally resume the chair to the normal position in a slow and gentle manner.

### Product specification

Model: Pro- Executive

Description: Full Body Air-massage Chair

Rated Voltage: 110-120V~ 60Hz   
220-240V~ 50Hz / 60Hz

Rated Power Input: 200W

Rated Working Time: 20Minutes

Safety Design: Class I

Material introduction: PVC, PA, steel parts and electric &ele-ctron parts
