

Gentlest. Oral Care. Ever.™

Better Patient Compliance with CloSYS.

The CloSYS® Complete Oral Health System™ utilizes a patented, stabilized chlorine dioxide formula in a sulfate-free toothpaste, available with and without fluoride, and antimicrobial oral rinse to provide significant results for your office and your patients.

CloSYS kills anaerobic bacteria, periodontal pathogens and volatile sulfur compounds. CloSYS performs equal to or better than prescription chlorhexidine, and can be used everyday.

Ultra Sensitive & Sensitive Rinse

Original Unflavored and Gentle Mint Flavor

Available in these sizes:

3.4 oz Original

2C-34-48B (48 Per Case)

16 oz Original

2C-16-12RU (12 Per Case)

32 oz Original

2C-32-12RU (12 Per Case)

32 oz Flavored

2C-32-12X (12 Per Case)

64 oz Original

2C-1G-4M (4 Per Case)

Ingredients Ultra Sensitive Rinse: water, stabilized chlorine dioxide, trisodium phosphate, citric acid. Flavor dropper ingredient list: natural mineral oil and natural peppermint oil.

Ingredients Sensitive Rinse: water, stabilized chlorine dioxide, trisodium phosphate, citric acid, flavor and sucralose.

✓ Alcohol-Free ✓ CPC-Free ✓ Gluten-Free

CloSYS Original Unflavored Rinse with the flavor control option or the NEW Gentle Mint Flavor Rinse are simple and effective thanks to Cloristan®, a powerful, patented ingredient that kills 99.9% of harmful bacteria in 10 seconds.

Rinsing twice a day with CloSYS reduces harmful bacteria in your mouth for a noticeably cleaner and healthier feeling, and fights bad breath for more than eight hours.

CloSYS is pH balanced and alcohol free, so it works gently but effectively. And unlike alcohol-based formulas, you get the clean without the burn.

- ✓ Kills 99.9% of Harmful Bacteria in 10 Seconds
- ✓ No Alcohol to Burn Your Mouth
- ✓ Cpc-free (Cetylpyridinium Chloride) and Gluten-free
- ✓ Works Gently but Effectively
- ✓ Long-lasting Breath Protection
- ✓ A Refreshingly Clean Taste

The difference between CloSYS and other oral mouth rinse is its ability to eliminate the Volatile Sulfur Compounds (VSC) that cause bad breath and the harmful bacteria that create them, without any burning or irritation.

With the CloSYS Original Unflavored version you can control the taste. Use the oral rinse completely unflavored for a clean, fresh taste or add a touch of mint flavoring to suit your taste. However, if you already know you like your rinse flavored you'll enjoy the NEW Pre-Flavored CloSYS rinse. The same great results as the original unflavored version but with just the right amount of clean mild mint taste. Non-burning and non-irritating.

Ingredients CloSYS Silver Rinse: Active ingredient- sodium fluoride 0.05%(0.02% w/v fluoride ion) Inactive ingredients- water, stabilized chlorine dioxide, trisodium phosphate, citric acid, peppermint flavor and sucralose.

Multi Benefit Fluoride Rinse

Gentle Mint Flavor

Available in these sizes:

3.4 oz Gentle Mint
2C-34-48F (48 Per Case)

16 oz Gentle Mint
2C-16-12F (12 Per Case)

- ✓ Alcohol-Free
- ✓ Sulfate-Free
- ✓ Gluten-Free
- ✓ Triclosan-Free

CloSYS Silver® is designed to address the changing needs of mature mouths, featuring patented Cloralstan® for gentle and targeted germ killing to promote oral and overall health. The special formula is dentist recommended to help relieve dry mouth and contains fluoride to strengthen enamel and protect against cavities.

- ✓ Gentle Formula Ideal for Sensitive, Aging Mouths
- ✓ Relieves Discomfort from Canker Sores or Chemotherapy Sores Without Irritation
- ✓ Kills 99% of Harmful Bacteria That Causes Bad Breath
- ✓ Reduces Plaque and Promotes Oral Wellness
- ✓ Strengthens Enamel and Protects Against Cavities
- ✓ ph-balanced to Reduce Germ Growth
- ✓ Exceptional Breath Protection

The difference between CloSYS and other oral rinses is its ability to eliminate the volatile sulfur compounds (VSC's) that cause bad breath. It also kills the harmful bacteria that create VSC's and gum infection, without any alcohol or additives to cause burning or irritation.

Available in Gentle Mint flavor for a subtly refreshing taste.

Sensitive Fluoride Toothpaste

Gentle Mint Flavor

Available in these sizes:

0.75 oz Anticavity
1C-75-48F (48 Per Case)

3.4 oz Anticavity
1C-34-24F (24 Per Case)

7.0 oz Anticavity
1C-7-24F (24 Per Case)

Ingredients Sensitive toothpaste: Sodium fluoride 0.24%, water hydrated silica, stabilized chlorine dioxide, sarkosyl (coconut derived), disodium hydrogen phosphate, cellulose gum, titanium dioxide, peppermint oil, sodium dihydrogen phosphate, sucralose and menthol crystals.

- ✓ Sulfate-Free
- ✓ Triclosan-Free
- ✓ Gluten-Free

Our toothpaste has a unique combination of ingredients that kill the harmful bacteria, help prevent cavities, and neutralize odor-causing compounds. CloSYS Fluoride Toothpaste:

- ✓ Freshens Breath
- ✓ Sulfate-Free
- ✓ Non-Irritating
- ✓ Anticavity
- ✓ Gentle Low Abrasion Formula
- ✓ pH Balanced

But CloSYS toothpaste does so much more: it lets you brush away the bad stuff, and feel more in control of your health. CloSYS contains mild polishing agents that whiten teeth and remove tough stains, while being one of the least abrasive toothpastes on the market. CloSYS protects the enamel and won't harm expensive dental work, or irritate sensitive mouths.

And CloSYS is one of the few toothpastes available that does not contain sulfates (foaming agents), which have been linked to allergies, mouth ulcers and canker sores. Also, CloSYS does not contain Triclosan or Gluten.

MicroCLEAR® Dental Unit Waterline Cleaner

For Self Contained Water Systems

Available in these sizes:

1 Gal Cleaner

DUWL-2-2PU (2 Per Case)

Pkg. 12 Pump

57001-11 (12 Per Case)

EPA Reg. #87117-1 Registered in all 50 states-available upon request

Ingredients: Chlorine dioxide 0.1%, Other ingredients 99.9%

✓ The Least Expensive Dental Unit Waterline Cleaner.

A common problem associated with clinical and dental office waterlines is the buildup of bacteria and biofilm that pose a significant risk of infection to dental staff and patients

The proprietary chlorine dioxide formulation in MicroCLEAR Dental Unit Waterline Cleaner has shown to be effective in reducing bacterial concentrations below the American Dental Associations recommended levels.

MicroCLEAR Dental Unit Waterline Cleaner is:

- ✓ Non-staining & Non-corrosive
- ✓ pH Balanced
- ✓ No Mixing
- ✓ Odorless - Tasteless
- ✓ Does Not Affect Bond Strength
- ✓ Will Not Harm Lines or Damage Equipment

MicroCLEAR is non-toxic and designed to remain in the waterlines overnight without the need to air or water purge at the end of the day. MicroCLEAR does not require mixing and comes with a calibrated pump to reduce waste and save time.
