Your Skin

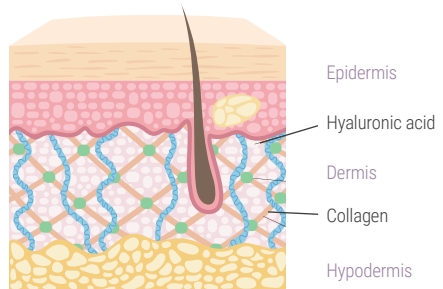

Skin is the largest organ of the body and acts as a natural waterproof, insulation protecting us from damaging sunlight and other elements that cause accelerated ageing.

As we age, we lose collagen at the rate of 1.5% a year from our early 20s. This loss results in wrinkles, fine lines, dry, blemished and thinning skin. Skin is made up of three layers: Epidermis, dermis and subcutaneous layer. Collagen is mainly found in the dermis.

Collagen is a critical part of the structure of the dermis, and gives our skin its plumpness.

Smarter Skincare

According to leading professionals, everyone can achieve bright, luminous and healthy skin by adopting a 360-degree approach to their health matrix, looking 'outside in' as well as 'inside out'.

For best results, we can no longer rely on a traditional approach to skincare and must look to supplementation to feed our skin from the inside out. SkinFuel™ is the perfect missing piece...

Our Pure-Performance grade Japanese Collagen is sourced from fresh water fish, which is low in sodium and avoids mercury contamination. It is a precious ingredient and each bottle includes 7000mg.

Each SkinFuel™ bottle of 15 tablets includes 15,000mg highest quality ingredients, with no artificial flavours or colouring and zero calories. With natural blueberry and mint, it offers a pleasant tasting and convenient addition to your daily skincare regime. Drinking SkinFuel™ on a daily basis results in firmer, more even toned, hydrated, radiant, youthful and healthier looking skin. It reduces fine lines and wrinkles and repairs connective tissue, so you'll also benefit from stronger, healthier and faster-growing hair and nails.

How it Works

Traditional anti-ageing products only function on the surface of the skin.

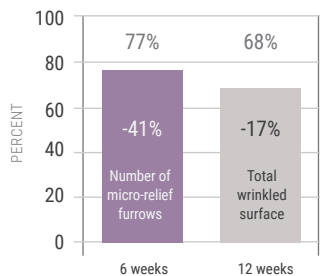

SkinFuel™ works from the inside out. SkinFuel™ increases collagen in the bloodstream by adding 1000mg of hydrolysed marine collagen from each tablet (daily dose), but more importantly it triggers the body's own collagen.

SkinFuel™ increases collagen in the bloodstream by adding

1000mg

of hydrolysed marine collagen from each effervescent tablet (daily dose).

production by firing up the fibroblasts, our own collagen factories. Increasing collagen in the bloodstream also increases the body's production of hyaluronic acid, responsible for optimising skin hydration.

After 6 weeks, 77% of peptide group had micro-relief furrows decrease by 41% and after 12 weeks a decrease of the total wrinkle surface of 17% for 68% of the group was measured.

Why a Drink?

If you were to try taking SkinFuel™'s ingredients in tablet form, you would need to swallow around twenty large tablets daily.

1 x SkinFuel™
80% - 90%
Body Absorption Rate

Equivalent to
20 x pills
30% - 40%
Body Absorption Rate

Not only is this difficult, but the body also finds them tough to digest. The valuable nutrients would pass through your system unused instead of being absorbed by the body.

Clinically Proven Results

After completing a SkinFuel™ course, many consumers have reported the following results:

Individual results will vary but, with continued daily use, your skin will continue to improve. For best anti-ageing results we suggest a 90-day course.

Moisturising Effect

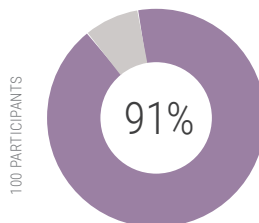

There was a significant improvement in skin hydration (28%) compared to the placebo after 8 weeks. The collagen peptides stimulate skin cells to increase production of pro-collagen, Proteoglycan and hyaluronic acid (HLA) leading to improvements in skin hydration (effective in 91% of participants).
