

Dual Hanger Bands

1. After properly mounting the bar mount and hanger, wrap the two bands at the center of the hanger.

2. Wrap the bands over the top of the headsets, and secure the band under the hanger bolt head.

3. Image 3 displays the proper way these bands secure the headsets to the hanger.

Note: Hanger Bands are intended to secure headsets during transportation only and not during racing or riding. Rugged Radios is not responsible for loss or damage of headset as a result of ignoring this guideline.
