JLab is excited and proud to have produced the first high-quality, stylish, safe headphones just for kids! Please read the following safety info carefully to ensure safe use.

**This product should always be used under adult supervision.** It does contain a cable with a small jack that could pose a choking hazard without adult supervision. Please be mindful while your child enjoys using the JBuddies.

## TO INSTALL YOUR FAVORITE GRAPHIC DISK

- 1 Peel off protective paper backing to expose adhesive (fig. A).

- 2 With the adhesive side facing the headphones, firmly press the disk into the open area on the side of the earpiece (fig. B).  
Repeat steps for the other side.

## TO ADJUST VOLUME LEVEL

Turn the dial on the right earpiece clockwise to lower the volume or counterclockwise to raise the volume (fig. C).

The direction is indicated by markings on the bottom of the earpiece.

## WARM-UP YOUR HEADPHONES

Optional: Burn-in is the process for exercising new audio equipment. We recommend 40 hours of burn-in time for most headphones to reach optimal performance. The main purpose of the process is to loosen the diaphragm of a newly crafted headphone and to stress the headphone driver. Normal, everyday use can also burn-in the headphones though JLab's proprietary burn-in provides an ideal mix of sounds and frequency sweeps to achieve this.

 Burn-in your audio equipment with the JLab Audio app available on the App Store and Google Play. Or access the burn-in method at: [jlabaudio.com/burnin](http://jlabaudio.com/burnin)

## CAUTIONS

- Avoid getting moisture or liquids on the headphone cups.
- Avoid extreme heat, cold, and humidity.
- Avoid dropping or crushing headphones, stressing the cable by rapid pulling or extreme force, or bending the cable at a sharp angle.
- Wax may build up in headphone cups, lowering the sound quality. Carefully remove the wax with a cotton swab or other small tool to improve the sound quality.
- If you experience discomfort or pain, try lowering the volume or discontinuing use temporarily.
- If you experience regular discomfort while using this product, discontinue use and consult your physician.
- We recommend you treat your headphones as you would a nice pair of sunglasses and keep them in safe location when not in use.
