

# WALL WASHER LIGHT BAR

## USER MANUAL

At first, thank you for purchasing the device. For the sake of safety and regular operation of this projector, please read this manual carefully before using and operating it in order to avoid any personal injury or damage to the device.

## WARNING

**FOR YOUR OWN SAFETY, PLEASE READ THIS USER MANUAL CAREFULLY BEFORE YOUR INITIAL START-UP!**

**CAUTION:** Keep this equipment away from rain, moisture and liquids.

### **SAFETY INSTRUCTIONS**

Every person involved with the installation, operation & maintenance of this equipment should:

- Be competent
- Follow the instructions of this manual

**CAUTION:** Take care using this equipment!  
high voltage-risk of electric shock!!

Before your initial start-up, please make sure that there is no damage caused during transportation. Should there be any, consult your dealer and do not use the equipment.

To maintain the equipment in good working condition and to ensure safe operation, it is necessary for the user to follow the safety instructions and warning notes written in this manual.

Please note that damages caused by user modifications to this equipment are not subject to warranty.

### **Digital display operate:**

*a). Illustration part:*

MENU      UP      DOWN      ENTER  
A          B          C          D

**A.MENU**  
**B.UP**  
**C.DOWN**  
**D.ENTER**

### **Operation Instructions:**

After starting press A(MENU) Enter into main-menu,  
Press B(UP) C(DOWN) to select the submenu,  
and then press D(ENTER) to ensure.

**ATTENTION:**  
**DANGER OF LIFE! RISK OF BURNS!**  
**RISK OF FIRE! RISK OF SHORT CIRCUIT!**

## DMX Signal Connection

3-Pin XLR to 5-Pin XLR Conversion		
Conductor	3-Pin XLR Female (OUT)	5-Pin XLR Male (IN)
Ground/Shield	Pin 1	Pin 1
Data Compliment (-signal)	Pin 2	Pin 2
Data True (+signal)	Pin 3	Pin 3
Not Used		Pin 4-Do Not Used
Not Used		Pin 5-Do Not Used

### Technical Specifications:

Voltage: AC110-240V, 50/60HZ

Power: 80W

LED Wash: 12x3W 3IN1 RGB LED

LED Beam: 12x3W Warm White LED

DMX Channels: 4/6/11/48/54

## SETTING MENU LED DISPLAY:

245-255	R:255G:255 B:255

# MAINTENANCE

Dust build-up reduces light output performance and can cause overheating. This can lead to reduction of the light source's life and/or mechanical wear. To maintain optimum performance and minimize wear, clean your lighting products at least twice a month. However, be aware that usage and environmental conditions could be contributing factors to increase the cleaning frequency.

To clean the product, follow the instructions below:

1. Unplug the product from power.
2. Wait until the product is at room temperature.
3. Use a vacuum (or dry compressed air) and a soft brush to remove dust collected on the external surface/vents.
4. Clean all transparent surfaces with a mild soap solution, ammonia-free glass cleaner, or isopropyl alcohol.
5. Apply the solution directly to a soft, lint free cotton cloth or a lens cleaning tissue.
6. Softly drag any dirt or grime to the outside of the transparent surface.
7. Gently polish the transparent surfaces until they are free of haze and lint.

 Always dry the transparent surfaces carefully after cleaning them.

**CAUTION: Take care using this equipment!  
high voltage-risk of electric shock!!**

## Customer Service

You will get 12-months warranty, and if you have any questions, please don't hesitate to contact us in advance. Our customer service will try our best to help you more. Thank you!
