# Ambi-Click Dry Verge System

# Designed to provide a mortar free and secure method of fixing concrete interlocking verge tiles.

The Ambi-Click Dry Verge system is designed to provide a mortar free and secure method of fixing concrete interlocking tiles. Ambi, meaning ambidextrous, allows you to install this system in both left and right applications, as apposed to traditional handed verge products. The system is available in three colours to blend in with the roof line and fits most profiles of concrete interlocking tiles.

#### Features and benefits

- Mortar free meaning it's quicker and easier to install than a traditional verge.
- Weatherproof and maintenance free.
- Its secure mechanical fixing, which complies with BS 8612 and BS 5534, means it's easy to fit with no special tools required.
- Acts as a secondary perimeter fix in accordance with BS 5534.
- Available in three colours.

# Area of application

- For roof pitches over 12.5.°
- Suitable for most profiles of concrete interlocking tiles, between 260 350mm batten gauge.\*
- Suitable for new build and refurbishment.

## Approvals and certifications

- Complies with BS 8612 for performance and BS 5534 for mechanical fixing.
- All products supplied by Klober Ltd are covered by a 10 year guarantee against manufacturing defect.
- \* Not suitable for thin leading edge concrete tiles.

## **Technical guidance**
