

## Cedral Slates

### Accessories: Cedral Dry Fix Ventilated Ridge Strips

TECHNICAL  
NOTE

Cr-03/12/en/v1

## Pack of 14 x 900mm strips - Product Code: IE\_DRYFIXVTRIDGEST

### Application

Used to provide 5mm continuous ventilation on both sides of the ridge at high level. Suitable for both Cedral Duo Pitch Ridges 525mm and Cedral Mono Pitch Ridges 525mm, for roof pitches ranging from 20° up to 45°.

### Material

Manufactured from HIPS (High Impact Polystyrene).

Each pack of 14 x 900mm strips covers 6.3 linear metres of a duopitch or monopitch ridge.

### Installation

Two of the strips in each pack will have double sided tape on the back, to stick to the top surface of the slates on either side of the ridge.

The rest of the strips are fixed together using the peg and round holes located on the back of the strips.

Site the 525mm Cedral fibre cement ridges on top of the strips, which will hold them in place once the ridges have been fixed down into the ridge fixing battens.
