

# GUITAR STRING BRACELET SIZING

## DETAILS:

Bracelets have a clasp that opens and closes to allow for a snugger fit. We offer sizes in half-inch increments.

## DIRECTIONS:

- Using a soft measuring tape or a piece of string, wrap the string around your wrist where you'd like your bracelet to sit and add about a half an inch (you don't want your bracelet too tight).
- Example: My wrist is 6 inches, so I will order a 6.5 bracelet that will be 6.5 inches, including the clasp.

# GUITAR STRING CUFF SIZING

## DETAILS:

Cuffs are available in two sizes, S/M and M/L. Both are  $\frac{3}{8}$  of an inch in width including string inlay. Each size is customizable by bending with gentle pressure.

## S/M

- Opening of just over one inch, can be made smaller or larger with gentle and steady pressure.
- Flat measurement of 6 inches in total length.
- Bracelet width of 2.5 inches.

## M/L

- Opening of just over one and a half inches, can be made smaller or larger with gentle and steady pressure.
- flat measurement of 7.5 inches in total length.
- Bracelet width of 3 inches.
