SINCE 1978

Trinity Racing has been building the best performance exhausts and accessories since 1978. Now 41 years later, we still strive to manufacture the highest quality performance parts, all made in America. Nobody in the UTV industry has more experience, so if you want performance, quality, and customer support, look no further.

RZR TURBO / PRO XP FULL SYSTEM

- 304 brushed stainless steel mid & head pipe
- Dual aluminum mufflers brushed or black finish
- Fully Tig Welded
- 6061 Billet Muffler Clamps
- 6061 Billet Machined Exhaust Tips
- Oxygen sensor bung
- USFS approved spark arrestors
- Significant horsepower and torque gains
- 2 year warranty
- Made in the USA

POWERVISION
REFLASH TUNER

STAGE 5 EFI TUNER

When modifying the exhaust on your side by side, it is imperative that you also have the vehicle tuned properly. Whether you decide to go with the Dynojet Powervision, which includes a fully custom tune specifically built for the Trinity Racing Stage 5 exhaust, or the Stage 5 EFI tuner, you can't go wrong. Both tuners will increase the fuel into the engine, fixing any lean issues that are created from the installation of an aftermarket exhaust. Remember, the more exhaust that is flows out of the engine, the more fuel that is required!

BOOST TUBES

CAN-AM MAVERICK X3

Running an aftermarket tune on your turbo'd side by side? Protect your engine with a Trinity Racing boost tube! Our boost tube kits are made of reinforced silicone, allowing for you to run more boost pressure without any leaks. Pair a boost tube with our blow off valve for the best possible performance. The blow off valve will relieve built up pressure, and can be set to either vent to atmosphere, or recirculate back into the intake plenum.

Kits are offered complete with a blow off valve, or can be pieced together separately.

DRIVE BELTS

Extreme: Think of this belt as an OEM equivalent in terms of quality and performance. Great proven performance, American made quality, all for a very affordable price.

Sandstorm: This belt is known for its superior performance in terms of heat, horsepower, and durability when compared to the OEM belt. If you are looking for a long lasting belt with a warranty, look no further.

World's Best Belt: Many racers have torture tested this belt, proving just how much stronger it is than any other belt available. This is as strong as belts get, which is why we can offer a 1 year warranty on it.

1 year belt warranty is valid when paired with a Trinity Racing® clutch kit

CLUTCH KITS

Stock clutching sucks! Whether you have increased the performance of your vehicle with an exhaust and tuner, or you're running larger tires, your clutch will need to be modified. Trinity Racing offers a variety of clutch kits, all specific to the vehicle, elevation, and what size tires you are running. In addition to that, certain models include (or can be purchased separately) a helix, that removes the engine braking, which we highly recommend!
