for more information.

CARING FOR YOUR BEDSTEAD

PLEASE DO

- Ensure that the floor is level as excessive strain can be placed on the frame.
- Where the brackets are fitted please ensure that they are.
- Occasionally check and tighten using the Allen Key provided.

PLEASE DO NOT

- Stand directly or jump on the base / bedstead
- Drag the base / bedstead

UPON DELIVERY

Please ensure that the protective polythene wrapping is thoughtfully disposed of, as this could seriously endanger young children. Please make sure hands are clean before opening the final layer of protective wrapping as not to soil the product.

FLAME RETARDANCY

- BS5852
- CIGARETTE '0'
- PASS

COLOUR MATCHING

Whilst every effort has been made to ensure that colours correspond closely to those illustrated in our pattern ranges, we cannot guarantee to match the samples exactly. If an exact match is required, please request a stock sample for approval.

GENERAL CARE

These fabrics will repay constant care. Frequent treatment with a hand vacuum cleaner will help greatly maintain.

ASSEMBLY INSTRUCTIONS

- 1 x headboard 1 x footend 2 x side rails 1 x allen key

- ✓ Lay out all the items flat
- ✓ Loosen the bolts that are in the headboard and footend of bed (like picture).

- ✓ Standing the headboard against a wall and facing the headboard attach the left-hand side rail on to the affixed brackets as picture.

- ✓ Then attach the side rails to the headboard.
- ✓ Then attach the footend to both side rails, the bedstead will now be freestanding.
- ✓ Align side rails with the headboard and footboard, then tighten.
- ✓ Tighten ALL the bolts using the provided allen key (like picture).

- ✓ It is important that all the bolts are tightened and to go around the whole bedstead three times to make sure this is so.

- ✓ Place the slats/bed base onto the carrier rails and screw down

- ✓ Place mattress onto slats/bed base.
