

# Radiator Measuring Instructions

Below please see how to measure your radiator. Please take the measurements in centimetres, allowing a margin of error of +/- 1cm.

NOTE: all Radiator Covers have to be 5 to 10 cm larger than the Radiator on all dimensions to ensure good fit.

**RADIATOR HEIGHT :** Please measure from the lowest to the highest part of the radiator.

**FULL HIGH:** Please measure from the top of the radiator to the floor.

**WIDTH:** Please measurements from the left to the right, including pipes, valves and water regulators.

**DEPTH:** Please measure from the wall to the most prominent part of the radiator, including any keys or regulators.

**SKIRTING BOARD:**

**HEIGHT:** Please measure from the top of the skirting board to the floor.

**DEPTH:** Please measure from the wall to the thickest part of the skirting board.
