# Mindful MATH

## “I Can” Posters

There are 120 concept “I Can” posters included for a variety of math topics First Grade students need to learn. They clearly describe and illustrate mathematical concepts, and are perfect for using during math lessons. They help lead a lesson and provide a visual reminder for students. Read the prompts to students, discuss, and then replicate the examples together.

# I can count to 20 on a line or chart

There are different ways to count to 20. A number line and chart are the counting for you.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20

There are 15  
stars in total.

# I can

## add within 10 using different strategies

Use your fingers, draw pictures, and use small objects to solve addition equations.

$$5+5=?$$

It's 10!

# I can

## compare & order length

Length is how long or short something is. Order objects by comparing their lengths.

The bat is long.

The crayon is short.

Line objects up beside each other to order by length.
