Addition MATH in a MINUTE

Has What Teachers NEED & LOVE!

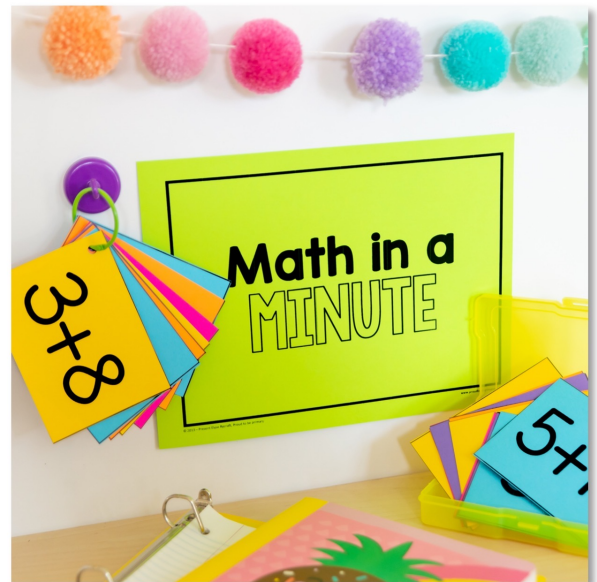

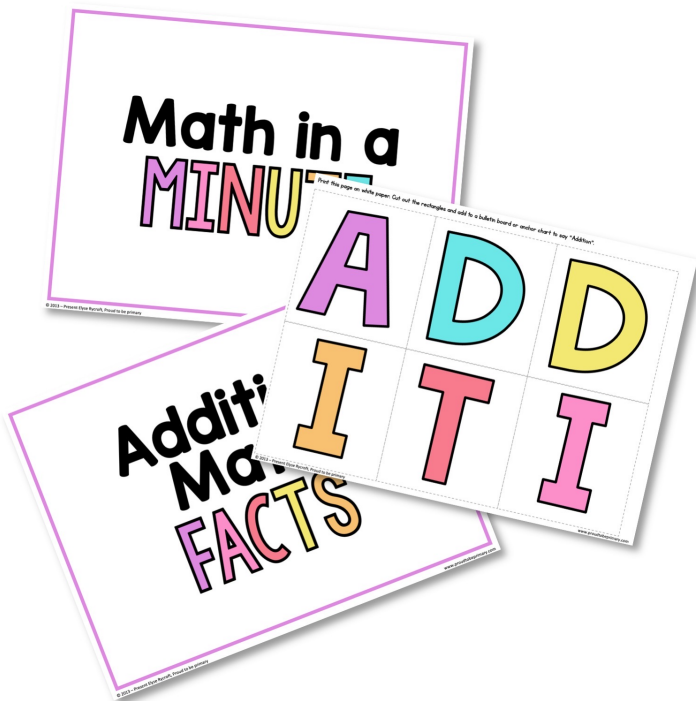

- This resource covers addition math facts to 10 and to 20 and provides students with fun and engaging fluency practice.
- This resource builds addition math fact skills and fluency through independent practice and a variety of engaging activities.
- This resource saves you time as it comes with everything you'd need to provide fun and fresh addition math fact practice!
- The print-and-go booklets, cards, and worksheets work great with any math program or curriculum. Simply add to your routine!
- 3 different worksheets provide fun and engaging independent practice.
- A variety of games give students practice math facts and word problems to 10 and 20 with a partner during center time.

Addition MATH in a MINUTE

Posters & Headers

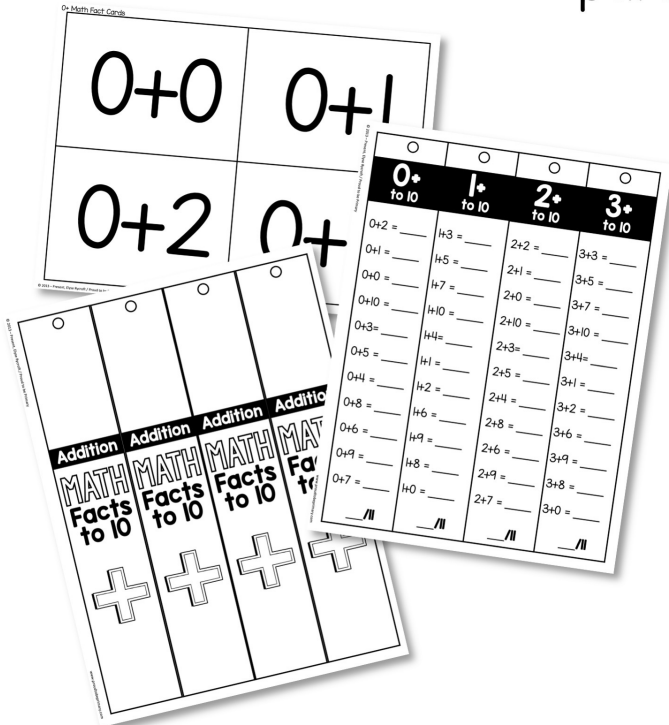

Create a special “math fact” practice area in your classroom to encourage review and student participation! There are headers and posters included to use to set up an addition area in your classroom. Use them to hang on the bulletin board, or attach to a tri-fold for a movable math center!

Addition MATH in a MINUTE

Fact Cards & Strips

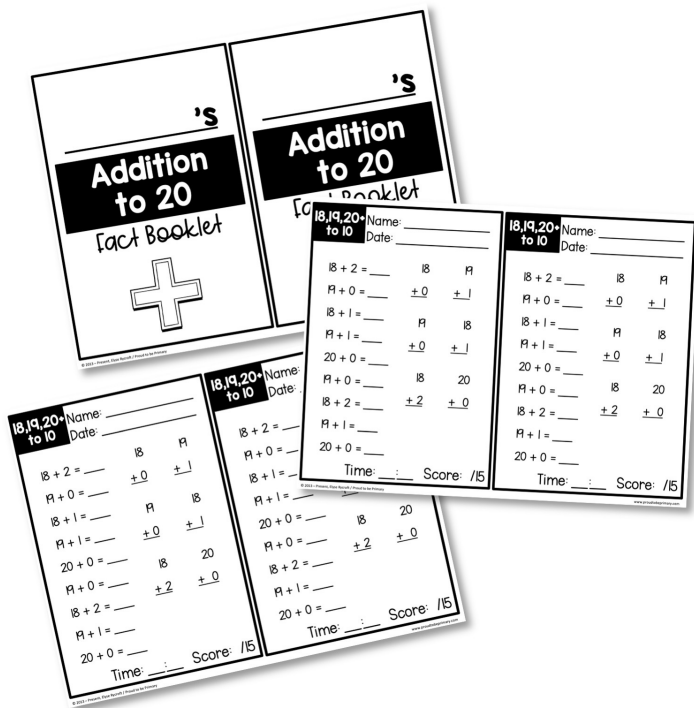

Addition fact cards and strips are available in all facts to 20. The fact strips can be separated into groups with facts to 10 or 20. Print, cut, and hang on the board or give to students to practice during math review time, independently or with a partner.

Addition MATH in a MINUTE

Math Fact Booklets

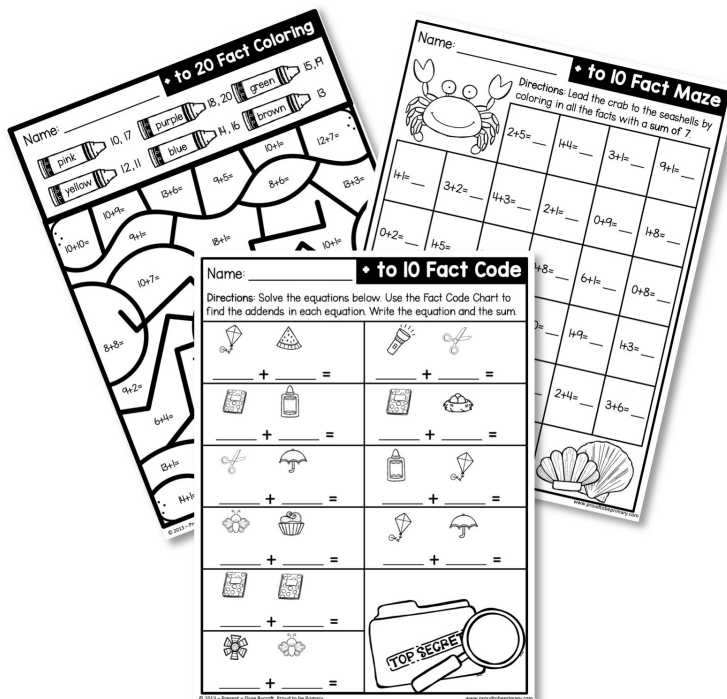

Work on math facts to 10 and 20 with a fact booklet. Your students can work on them independently, during center time, or even use as a review for homework. Print the sheets you need, staple together, and you're ready to go.

Addition MATH in a MINUTE

3 Types of Worksheets

Print and go worksheets are available for students to use to practice their math facts. Find and color worksheets, crack the code worksheets, and fact maze worksheets! Each set has a variety of math facts to 10 and 20. There are 31 worksheets in total!

Addition MATH in a MINUTE

3 Math Fact Games

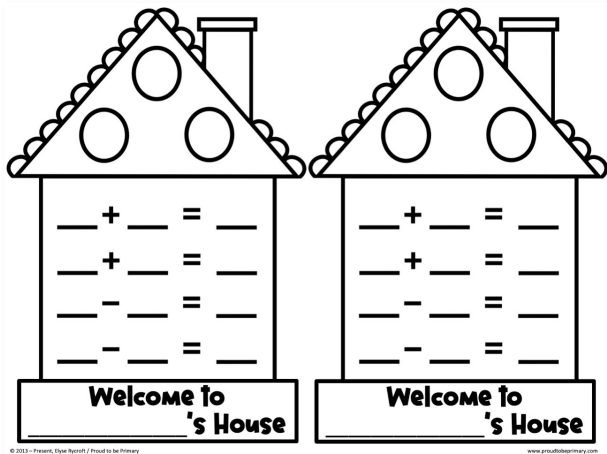

Your students can practice their math facts in a hands-on way! Use these 3 games to help students practice facts to 10 and 20 with word problems using the word problem picnic game, or as regular facts with Bingo or Fact War!

Addition MATH in a MINUTE

Fact Family House Craft

Create a Fact Family House craft using the provided house to review fact families you have been working on! The house included is blank so students can fill in a fact family of choice, cut, and glue to decorate.

Addition MATH in a MINUTE Certificates

Celebrate fact family mastery with certificates! This resource includes two sizes, clipart, and color options, so you can pick and choose which works best. Print and pass out to celebrate your student's accomplishment.
