I purchased this with one student in mind who recently had sight words added to his IEP, and I didn't have any resources for him. This worked SO well, I really like how it is organized. I could send materials home to have him review and practice and he made quite a bit of progress over summer session. I need the bundle now so I can work with lower-grade students as well.

This is a perfect resource for homework and in class practice. I am using it to help a student who needs different spelling words than her peers. I would use again in the future.
